## 1.0 Purpose and Audience

This document defines the Arc Solutions policy with relation to Arc software End Of Life (EOL). It explains our policy on supplying & supporting Arc Console Enterprise and Arc Call Connect Software.

## 2.0 Copyright Statement

Copying of this document by any third party is strictly prohibited. This document contains confidential information and cannot be disclosed without the permission of Arc Solutions.

## 3.0 Usage of this document

This document is to be used by End Users, Resellers and Distributors in order to understand Arc Solutions EOL policy. This will be used to define ongoing Support offerings from Arc for current and old software versions.

## 4.0 Arc Solutions – End of Life Policy:

Whilst End-of -Life of software product versions are an established part of the overall product life cycle, Arc solutions recognises that end-of-life milestones often prompt companies to review the way in which such end-of-sale and end-of-life milestones impact the Arc products in their networks. With that in mind, we have set out below Arc's end-of-life policy to help customers better manage their end-of-life transition.

**Arc Solutions announces the end-of-sale and end-of-life dates for the Arc Premium suite versions 4.1.0 to 4.1.3 (inclusive). The last day to order these versions was end February 2009. Customers with active service contracts will continue to receive support from the Arc Support Centre as defined in the tables below.**

Table 1 describes the end-of-life policy for Arc Solutions, including milestones, definitions, and dates for Arc Enterprise and Arc Call Connect.

Customers are encouraged to migrate to Arc New Product 5.1 as of August 2009. Release 5.1 is a single software code that is licensed appropriately to provide the different versions of Arc Enterprise feature set. Please refer to the Arc Solutions Compatibility matrix at <http://www.arcsolutions.com/uk/pdf/enterprise/CompatibilityMatrix.pdf> to establish which of the Arc versions remaining in-life below are appropriate for your Cisco platform.

**Table 1. End-of-Life Milestones and Dates**  
**Milestone Definition Date**

Highlighted in yellow are the versions of software to which this **End Of Life statement** applies

## 5.0 Milestone Definitions

- **Arc Announces End Of Life Date:** This is the date that Arc announces the End Of Life milestones for the software version in question.
- **Arc will not supply this version after this date (+6 months):** The quoted version will not be supplied to new end users after this date as the version has been superseded by a later version.

- **Arc will make no further code changes or generate patches after this date (+12 months):** Arc will no longer make changes to the product code after this date and if support issues arise that are down to the code interaction with the customer environment then the end user may be advised to upgrade to a later version of software to resolve the issue.
- **Arc will make not provide new support contracts for the product after this date (+24 months):** Customers wishing Arc to take on a new support contract for the version of code in question after this date will be advised to upgrade to a later version at the time of the contract starting.
- **Arc will not support this product anymore (+36 months):** Arc will no longer provide any support on this version of software after this date and customers will be advised to upgrade to a later version.
